The grid games will start at 2 p.m. at Rockchaw stadium with three teams from both Fleas and Flies competing. Vote Glass chamber president

Powell Glass, Jr., publisher of the Sea Coast Echo, and Joseph Marchino, head of Monitor Co., Monday were elected president and vice president respectively of Hancock County Chamber of Commerce by the board of directors. Glass succeeds Warren Carver and Marchino takes over from Dr. Walker. Several board members expressed concern over the Lewis and Nashville Railroad's plan to ask permission to continue operation of the line 9 and 12, the commuter, in Pass Christian to New Orleans. It was pointed out that if the trains are removed it might have an adverse effect on the growth of Hancock County just as the line is building up as a result of the space program on Mississippi Test Operation and at Rockchaw. Without dissent the board passed Russo's motion that the board take action in opposing the railroad's proposal. Glass said he would write the railroad and N. telling of its action. Mrs. Polly Fagan of the chamber's promotion committee remarked that she had contacted WFL-TV on the possibility of having this area featured on its morning program, info, and that the television station indicated it would be glad to do so.

For Beat 1 traffic

Direct crackdown

Strict enforcement of traffic laws in Beat 1, which includes the bulk of NASA's Mississippi Test Operations, was directed by the board of supervisors Monday after Constable Noah Bliss appeared to inquire the board's position on vehicle license tags and related matters.

In doing so the board voiced concern about vehicles without Hancock County tags constantly using roads in the county without payment of local taxes as well as unhappiness with recurring reports that allegedly qualified Hancock County men seeking jobs at the test site are by-passed for those from Gulfport and other points because of labor unions.

Beat 1 Supervisor H. G. Dean articulately protested hiring

policies by the contractors and complained equally strongly about restrictions on the county security patrol, employed under contract with NASA, saying they were ordered not touch "even speeders."

Clerk Claiborne Ladner said Sheriff Gerald V. Price had told him some trucks serving MTO had gone to other counties to get license tags, many of them having Pearl River tags while operating in Hancock.

The board finally told Bliss "don't overlook any law breaking" and said it would back him up if he made arrests within the fee area.

At Dean's request the supervisors also asked the county board of education to appear at

their meeting Dec. 2 and give a firm answer on its plans for relocation of the Logtown School. The Logtown plant will be closed at the end of the 1963-64 session as it is in the MTO buffer zone.

Dean said he wanted to know he would "never vote for a millage increase (for the schools) unless they build a school at Pearlport to replace Logtown." He charged the school trustees with "taking advantage" of Beat 1 since its trustees, Charles B. Murphy, has been confined with an eye ailment and unable to attend recent meetings.

The Beat 1 supervisor recalled that School Trustees E. P. Orte of Beat 5 and Murphy had inspected the Pearlport site approved by the State Education Finance Commission for the relocation and asked him to clear it which he said he had done at taxpayers' expense.

Dean repeatedly questioned reasoning behind the school board's present position that other Pearlport sites should be explored before anything further is done and voiced doubt as to the propriety of a school board member taking an option on a tract in his own name. Orte had offered to do so for the school board because of relocation.

Bay votes ordinance curbing street use

Adoption of an ordinance regulating use of public streets, curbing use of one to clear sidewalks in front of business establishments, a decision to enforce parking regulations in crowded areas and approval of a loan of \$30,000 to defray current expenses highlighted a meeting of Commission Council Monday.

It was also noted that patrolman Jack Ladner was scheduled to retire Dec. 1 and a replacement would have to be selected from a number of applicants.

The street ordinance, No. 152, makes it unlawful to operate an unusual vehicle differing from those ordinarily appearing on the streets, or from a vehicle from which loud or unusual noises emanate, etc., or to conduct a parade or other distracting activity without special permission. The ordinance is similar to that adopted by other coastal area communities and becomes effective Dec. 18.

Action on an ordinance to prohibit use of sidewalks by businessmen to display their wares was held in abeyance pending a meeting with local mer-

chants. After it was noted that cars parked on both sides of Union Street during functions at the annual parlor created a definite fire hazard, councilmen agreed to station a patrolman to enforce the no parking signs on the south-west side of Union.

Mayor John A. Scalfide said he had talked with Eugene Ocean, president of Ocean and White, Baton Rouge, La., engineers, who asked that council meet with him Monday as he may have a possible solution to the problem of financing a water system. Federal authorities have said there are no funds available for this project.

Also approved was expenditure of \$700 on an emergency loan to purchase an auxiliary 150-gal. tank and pump installation on the civil defense pick-up truck from Bird Fire and Safety Co. Scalfide said the drought had caused a serious fire threat and the truck could be used to put out grass and weeds fires. He said the installation could suck water out of a creek or anything else available.

Loop taps Lumkin

Billy Thomas voted lineman

"Well, it took five years but I finally made it," said Bay High football coach Lance Lumkin. After three conference championships and two second places in five years of competition, Lumkin was named coach of the year by secret vote at the annual meeting of officials of the Gulf Coast Athletic Conference Monday night in Stone High School at Wiggins. Superintendent J. D. McCulloch, vice president, attended.

Bay High's end, Billy Thomas, was named all-conference lineman which means the coaches consider him the best lineman in

the conference. He, his brother Jerry, tackle, and center All-Lumkin made the all-star team. Trophies will be presented in the school auditorium at 11:30 a.m. Wednesday.

Thomas is the fourth Tiger to be named all-conference lineman in the five years of the conference's existence. In 1959 it was Jim Mayfield, 1960 Woody Alliston, and last year Billy's brother, Teddo. The Tigers won the championship in 1959, again in 1960 and 1962. They placed second in 1961 and 1963, losing to Ocean Springs by one point this year.

Two North Central players, most improved team in the circuit, quarterback Eddie Peterson and end Berlin Ladner also made the all-star team.

Pass Christian's Dale Foy and Pat Bishop were named to the all-stars and Stone High's halfback, David Cobb, was selected all-conference back. Also from Stone is the conference player-at-large, tackle Charles Kennedy.

Setting up a basketball tournament brackets and selection of officials will take place at the next meeting Jan. 13 at Perkinston Junior College, McCulloch said.

Power firm starts huge job at MTO

Mississippi Power Co. started work in Hancock County this week on its part of the mammoth program to propel an American to the moon in this decade.

First phase of the work, after the State Public Service Commission granted the firm the certificate to serve Mississippi Test Operations last Friday, is construction of a temporary substation to provide power requirements for construction at the test site. It will have a capacity of 5,000 kva served by an existing 46 kv transmission line and should be ready for operation early next year adjacent to the site where the permanent substation is to be erected half a mile from the MTO south gate.

Work will start next year on a new 110 kv switching station at Kiln to handle two transmission lines between Kiln and Piquette.

MTO will be served by two 115 kv transmission lines which will tie in to the switching station at the south of the site and NASA will take the power from there and transform it for its own use.

Smith says U.S. slow on 43 funds

Disagreement over State Highway Department estimates on the cost of relocating Rt. 43 around Mississippi Test Operations has halted progress on the job, John D. Smith of Mendenhall, Southern district highway commissioner, told the Sea Coast Echo this week.

He said highway department crews had rushed the survey work so a contract for construction could be let at an early date but "government forces are awfully slow with their part of the agreement."

The differences, Smith explained, involve the estimated appraisals for the right of way. Mendenhall, the highway commissioner, said he has notified the National Space and Aeronautics Administration and the Corps of Engineers.

For some reason we seem to be getting the Christmas Spirit a bit earlier than usual this year. . . perhaps it's because just about every other shrub in town appears to be laden with brilliant berries or maybe it's the after effects of absorbing too many television commercials! One too many, anyway! We thought the Betsy Wetsy doll craze was carrying the realism bit a little too far. . . perhaps due to the fact that we've changed enough diapers in our day to get excited over the prospect but when we overheard an announcer extolling the virtues of the first really sick doll—Nancy Nurse, who in addition to whining a number of plaintive sentences actually coughs and sneezes. . . guess they'll inject live viruses into next year's models! About the only thing not on the market to date is the one doll kids would really enjoy. . . it could be named Beverly Boxer—and when you hit her she'd hit back! So much for the current toy situation, now on to news of the day.

Several proud papas have been passing out cigars in the past few weeks. . . some of these include Sylvan Ladner and Delbert Seay who were celebrating the arrival of their fourth.

On the recovery road

Our sick list appears to be gradually diminishing. . . Joe Plunkett is at home after having quite a bout with an inner ear infection; Charlie Vogt is on the mend after suffering a stroke a couple of weeks ago and although Joe Tait was forced to return to Veterans Hospital in New Orleans 48 hours before his pass expired he expects to be released permanently in four or five weeks. He did find time to visit some of his friends before returning to the hospital, but asks us to explain to others that he was in too much pain to spend the full weekend at home. Lucien (Push) Cox is also home once more after spending over a week in a New Orleans hospital.

We want to welcome as permanent residents Mr. and Mrs. Bert Glass and daughter who are renovating and adding on to their Clermont Harbor home. Mr. Glass is a native of Clinton, Tenn., but his work in the construction industry has taken him and his family to 46 of the 50 states and three Canadian provinces. . . sort of a nice compliment for the coast that they've selected to settle down here.

Bobbie and Maxie Trellis are pouring over house plans. . . they've decided on something a bit more modern and compact than their present Beach Blvd. home.

Mr. and Mrs. Wilson Callender were among weekenders arriving from the Crescent City. . . some others included Zelda and Ken Walzmann, Winnie and Jack Holm, Faye and Robert Vaughn, Pat and John Gehres, Doris and Baldwin Wilday, etc., etc.

Sporting catch

One of the most bizarre fishing tales we've heard of late concerns Mrs. E. J. Ziemmer's catch. . . she picked up a flounder weighing three pounds, seven ounces in a net while crabbing in Bayou Caddy. Trout are biting in the bayou also. . . Grace Bordages caught 18 while her pappy, Mayor Garfield Ladner had to be content with four last Thursday afternoon.

Retired Police Chief Alcing Saucier deeply appreciated all festivities given in his honor but was most touched by the Our Lady of the Gulf second grade fete Friday afternoon. They had made a replica of the school with a policeman and children in front of it and he was entertained with a skit featuring one of the little boys attired in a police uniform guiding other children safely across the street.

Eloise Hayes accompanied Elaine Davis to Stidell Thursday where they visited Elaine's daughter and son-in-law, Elaine and Roy Walters and of course granddaughter Wendy.

Hope you're feeling better Ruth Redding and Agnes Yennie and both children. . . Ruth had such a severe cold she was threatened with pneumonia and Agnes and the little ones had flu.

Sports-minded newcomers

We have some athletic new families in our midst. . . Mr. and Mrs. George Koomas, formerly of Jacksonville, Ark., who now live on Fifth Street, just off Sears Avenue in Waveland are ardent golfers. The "Saver" Stevens of Chantilly Terrace prefer bowling. We also want to welcome Edith and B. R. Ferrell of Wiggins. . . they are visiting Winnie Pennington's Jeff Davis home.

Millie and Allen and the three little Hickeys, Allen, Cheryl and Paul were Sunday guests of Jane and Brewster Mollere and family. Brewster has a new pet—it's a little black kitten trimmed in white and more or less answers to the name of Jay. . . which is just as well. . . they haven't decided as to its gender as yet.

Brother Otto, who incidentally made a flying trip to Jackson to attend the mid-winter meeting of the state dental officers association, also has a recently acquired animal. . . an indiscriminate breed, he's christened Herman.

Our deepest sympathy goes to the family of Dick Mestayer who died in New Orleans last Friday after over two years of serious illness. Unfortunately his wife Olga was a heart patient in the same hospital, Baptist, in which he passed away.

Emmie and Eddie Montgomery weekendend in their Beach Blvd. home but left a little early Sunday afternoon hoping to avoid the repetition of a very unpleasant experience the previous Sunday. . . as they crossed the Rigo-

Maroon roofers

Lucy and Dave McDonald, Winnie and Jim McDonald, Eve and C. C. McDonald, Marjorie and Bert Ladner, Shirley and Roland LaFontaine, Nancy and Howard Adams, Mildred and Red Hamilton and Leo Seal, Jr., were among those attending the Mississippi (Cont. on Page 4.)

State-LSU game in Jackson Saturday night. . . they reported that J. E. Lolarano appeared to be in on almost every play and made the hometown spectators more than a little proud.

More get well wishes go to Leah (Mrs. Ike) Lang, who underwent eye surgery at Gulfport Memorial Monday, and to Yvonne (Mrs. Norman) Benigno—she is feeling much better minus some painful kidney stones, also removed by surgery on Tuesday. Wayne Davis' name must be added to the proud new car owners list.

Mrs. George Owens of Cincinnati, Ohio, really likes the Bay and environs. . . she spent last winter as the guest of Betty Hill. . . returned to the Midwest, and is again in our midst. . . she and Betty are having a wonderful time scouting antique sales and the like.

Johnny Horlock is certainly looking fit. . . it's almost impossible to realize he was so gravely ill only a couple of years ago.

The Jerry Lipscombs spent the weekend on the Coast favoring the Bay with about a 15 minute visit on Saturday.

Gripe corner

Same song, umpteenth verse. . . kids on bicycles once again cause us to wonder if their parents really carry that much insurance on the little ones. . . not one day passes that we don't end up saying a fervent prayer of thanks that we missed one or more bicycle riders bent on suicide. . . first busily travelled streets are crawling with tiny riders wobbling along mindless of hazards and as dusk approaches the odds increase. . . almost daily we've shuddered as we've spotted a child riding just ahead virtually invisible in the blinding lights of an approaching automobile—at least we can reassure the parents in this way—it's a good way to settle the problem of population explosion!

Add Nellie (Mrs. Arthur) Lolarano to our sick list. . . Nellie's a patient in Hancock General.

SIGHTS AND SOUNDS ALONG THE WAY: Flocks of small russet hued birds pausing to swipe a meal of berries before proceeding Southward, soft green poinsettia leaves giving way to their expected Yuletide crimson and sounds of the season, rustling leaves, the crackling of bon fires and the muted waves as low tide holds them well away from the seawall.

North County News

By JOHN NECAISE

Hancock North Central Publicity Club under the sponsorship of coach Roland Ladner was organized recently. Its primary purpose will be promoting school spirit by boosting teams, clubs, etc., with posters and publications of events. Officers are John Necaize, President, Teddie Ladner, vice president; Edna Moran, secretary-treasurer, and J. E. Moore, reporter. The club is considering a student of the month program to recognize outstanding students.

A meeting was called last week by HNC coaches in regard to an athletic club. The club was organized last year and took a trip to the Senior Bowl in Mobile.

The jolly juniors of HNC presented an assembly program recently with the same title as above. Linda Dahl, Barbara Lee and Jana Knowlton twirled, and Bobby Ray Necaize and Tommy Cuevas provided music for the group. Betty Lee sang a solo and there was group singing.

The '63 homecoming turned out perfect all around. The queen, Miss Paula Hartel, in her white suit, looked simply beautiful. J. D. Penzon, superintendent, crowned her majesty and presented her with one dozen red roses. The maid of honor, Lynn Reynolds, in a red suit; Gwen Favre, wore a blue homecoming dress with black fur collar; Lamette Ladner, in a red suit, white fur collar and Judy Gale Ladner, sophomore, wore a blue homecoming dress, three-quarter length sleeves, etc. All the girls were vixens and we're proud of ya. The HNC band played for the ceremonies. The queen then acting as such is drum majorette of the Hawk band. Directing on the field for homecoming was featurette Edna Moran.

Sympathy and best wishes for speedy recoveries to all the seniors at HNC. The poor souls have been working frantically on research papers in Mr. Dahlen's English class. Last Tuesday night they met at school with their school master to iron out the details on these monster research papers. Understand Ann Lee, Beta Club president, has as her topic communism and has done so much research she is calling everyone comrades. As for Berlin Ladner, publicity is his topic.

The Beta Club will be selling pins with the school's initials and the school year.

Don and Rita Haas, son Donnie, and daughter, Debby, former residents of Kiln who have been living in Houma, La., where he is employed, moved back to Kiln this week where they own a house.

Since I last wrote HNC has played three games and won all of them. The Hawks played Eastonville Eagles before a huge homecoming crowd. The Hawks proved that the previous weeks win was not just a lucky night. The boys showed their ability and determination that finally ended in a 39-13 score. It was reported that coach Ezell Lee had trouble closing his mouth after the Pass High, Hawk game. He finally closed it only to have it open his job.

Airport or strip

Two weeks ago M. G. (Jack) Seuzeneau told Rotary Club members of the need for improvement to Hancock County Airport, if it can be dignified by that name. Seuzeneau, a commercial pilot who is also manager of the landing strip, reported on the inadequacies of the facility, which even light planes should avoid if the ground is wet. The plain fact is that the Hancock County Airport is not a good landing strip.

The airport manager estimated that for \$15,000 the present cowpasture could be developed into a real asset that would be used by many light planes. Already he guesstimated that between 15 and 20 non-local planes use the strip each week with even more which would like to use it going elsewhere because of its inadequacies.

Most members of Rotary indicated they would support Seuzeneau's proposal that either the county or our municipalities or some combination of the three should come up with the needed money. Other groups are being asked to support this proposal and it is our guess that the big majority will lend their weight to this move to give us something approaching a real airport.

We certainly think something should be done. On several occasions, the most recent last August, this paper has editorially pointed out this need. Nevertheless, we think consideration should again be given to providing the county with something more than a glorified landing strip.

In March, 1962, it appeared that the board of supervisors might have a solution. At that time Beat 5 Supervisor R. G. Hubbard, Jr., proposed to ask for federal assistance to develop an airport on 16th Section land at Jackson Ridge with a 5,200 foot paved runway, compared to a maximum of about 2,800 feet available at the present location. It was his idea that the county would realize more from the sale of the present landing strip than it would have to put in matching funds, assuming the federal government gave its O.K., and the county would have an airport capable of handling planes in the DC-3 class.

While Hubbard was the only supervisor pushing for this project the other members at first seemed inclined to go along. Then opposition developed. First, local light plane operators objected to the direction of the runway as visualized by Hubbard, although it was the same as the present strip, because they speculated that the proximity to the Mississippi Sound would give rise to stronger crosswinds and these are a problem for light planes. They also didn't want to give up the present facility, and privately some at least did not want federal assistance since Uncle Sam might then take over operation of the field in wartime—something he would do if the field were needed whether he had assisted or not. This group's only objection that made sense was the possibility of stronger cross winds at Jackson Ridge and that may not be the case.

The other objecting group was the county school board. A week after Emile Piazza told the supervisors the objections of the light plane operators, the school board adopted a resolution asking the supervisors to lease these 16th Section lands and thereby give more revenue to the school system. Trustee E. P. Ortte also expressed the view that NASA would provide an airport and indicated at the school board meeting that Beat 4 Supervisor James Necaise would oppose Jackson Ridge as a site for an airport. With no vocal support among the other supervisors for any new airport and with opposition to the Jackson Ridge proposal from the local pilots as well as the school board, Hubbard lost interest or so we have assumed. In any event, nothing more along this line has been done or even publicly talked about by the board of supervisors.

Nevertheless the proposal for a truly adequate airport at Jackson Ridge, or part in and part outside the buffer zone, or somewhere else still makes sense to us. If the somewhat nebulous estimates are close to correct, we could have this superior facility for less than Seuzeneau estimates would be the cost of his proposal. When our county can't even pay its current bills, that alone is a big factor.

Letters to The Editor

Editor, Sea Coast Echo:
The following is a copy of the letter sent to Mr. Naylor and Miss Smith in Jackson.

We read by publication the letter sent you under the signature of Miss August Under, Secretary of the Sea Coast Echo. We are sorry that we cannot see the letter and hope these conditions can be remedied.

However, we certainly hope the letter of criticism will be of some use to the school board. We are sure that the school board will be able to handle the situation.

Respectfully,

use within the best site.
Total capacity for MTO will be two 20,000 kva transformers at the sub-station.

The request for money that morally and inherently belongs to our school facility and relocation of it is comparable to the method used by scavengers when a catastrophe occurs.

We know that the intelligent thinking members of the school board will want to give us the opportunity to relocate our facility as it was intended and hereafter approved by the Hancock County School Board.

Respectfully,

When he inquired whether the supervisors could "by-pass the local school board to get regular and build a school," R. G. Hubbard, Jr., president of the board of supervisors, noted the only jurisdiction over the schools is in setting the millage.

Mrs. E. J. Brennan

Final rites will be at 9:30 a.m. today in New Orleans for Mrs. Edward J. Brennan, 67, native of that city and resident of Waveland for the last six months, who died Tuesday. Religious services will be at St. Francis Carlini Church in New Orleans with burial in Metairie Cemetery.

The former Miss Meda Schoen, she is survived by her husband; two daughters, Mrs. Spencer G. Smith, Mrs. William E. McClain; two sisters, Mrs. Hilda Brooks, Mrs. Mildred Koepf; four brothers, Philip Jr., Syriam Jr., Edward A. and Gerald L. Schoen, and eight grandchildren.

situation at Gulfview School in Lakeshore, Hubbard observed, "It's a shame to let that Clermont Harbor School go to waste." He conceded possible lunchroom difficulties but said he felt it should be used in view of the situation in the county.

Supervisors also accepted the resignation of Mrs. George Curet as welfare board member from Beat 4, and named Miss Fritz Bobinger to succeed her on motion of James Necaise of 4; cancelled a 16th section trapping lease for Placide Bourgeois on Jackson Ridge after he said nurse had run out all the muskrats; voted a Thanksgiving holiday for the Courthouse staff from noon Wednesday until the following Monday, and noted change of the NASA-county patrol contracting officer from William Winterstein to Henry T. Williams.

Necaise proposed that county pay checks approved the first Monday of the month be held until the following Friday but Hubbard recalled an earlier agreement to distribute them on the Tuesday and complained of violations by those who caught to get theirs immediately.

IN MISSISSIPPI

BEER IS A NATURAL

As natural as the wholesome grains and tangy hops from which it is brewed, beer is Mississippi's traditional beverage of moderation—light, sparkling, delicious.

And naturally, the Brewing Industry is proud of the good living it provides for so many folks in Mississippi. Not only for employees of the Brewing Industry itself, but also for the farmers and other suppliers of beer's natural ingredients. In Mississippi, beer belongs—enjoy it.

J. C. Schubert asked for the floor and said that his wife was unable to continue driving a Loggona bus as it had to leave at 6:15 a.m. due to two new pupils in Shoreline Park and that students were bawling on the bus. Superintendent K. G. McCarty assured him the board would discuss the matter.

Smith said that while Hancock County still has the highest transportation costs in the state, improvement has been made. In 1959 the county was spending \$50.59 per child, \$10.63 more than the state allocation; in 1960-61 the figure leaped to \$55.08, meaning that the extra money had of necessity to come out of local funds. Smith said that after he brought this to the attention of the board the figure dropped to \$46.00, only .41 cents over.

Smith then showed an architect's drawing for a suggested

PUBLISHERS HAVE PROBLEMS, TOO
Publication of a newspaper presents problems, not all of
which are related to politics or to the news and editorial ends
of the business. Consider for a moment the North Carolina pub-
lisher who relates this experience with a man who placed a
classified ad in his home-town paper. Here's the history of the ad:
MONDAY: "For Sale: R. D. Smith has one sewing machine
for sale PHO 958. Call after 7 p.m. and ask for Mrs. Kelly who
lives with him cheap."
TUESDAY: "We regret having erred in R. D. Smith's ad
yesterday. It should have read: For Sale: R. D. Smith has one
sewing machine for sale. Cheap. PHO 958 and ask for Mrs.
Kelly who lives with him after 7 p.m."
WEDNESDAY: "R. D. Smith has informed us that he has re-
ceived several annoying telephone calls because of an error we
made in his classified ad yesterday. His ad stands corrected.
For Sale: R. D. Smith has one sewing machine for sale. Cheap.
PHO 958 after 7 p.m. and ask for Mrs. Kelly who loves with
him."
THURSDAY: "NOTICE: I, R. D. Smith, have no sewing machine
for sale. I smashed it. Don't call 958, the phone has been taken out.
I have not been carrying on with Mrs. Kelly. Until yesterday,
she was my housekeeper."
All of which brings to mind another ad in (thank goodness)
another newspaper that went something like this:
"For Sale: The ladies of the Trinity Episcopal Church have
discarded clothing of all kinds. They may be seen in the church
basement any day after 6 o'clock."

TINY ROCKS OF 1963 - This is St. Stanislaus' eighth grade football team which closed out its season with a 3-2 record after defeating North Bay 7-6 last Wednesday. M. J. Rhodes scored from four yards out and Ronnie Genin shirked end for the decisive point after touchdown. (SSC Photo).

Fourth straight win

Peterson tosses for 5 HNC scores

Quarterback Eddie Peterson passed five touchdowns to spark North Central to their fourth consecutive win of the season over Pearl River Central 51-26 Friday night on Pearl River Junior College gridiron at Poplarville. It was Pearl River's homecoming.

N. Dame whips Rocks

St. Stanislaus tied Notre Dame of Biloxi in first downs with eight each but took a 44-7 walloping Saturday night at Biloxi Municipal Stadium in a Mississippi Catholic Conference football contest-homecoming for the Rebels.

It was the Rockchaws' last regular game of the season but they will head for Chalmette, La., Friday to tackle the St. Bernard Eagles in the second annual Alumni Bowl sponsored by the St. Bernard Jaycees.

The Rocks were outnumbered again having only five backs while the Rebels used 14. Notre Dame's big, hard-hitting line-men caused Stanislaus' back to drop the ball and the Rocks lost four fumbles. They were forced to take to the air where they lost possession three times by Rebels, once when Donny Holway intercepted to set up a 31-yard TD aerial from Jesse Truax, rated one of the Coast's top quarterbacks, to Bill Cleaveland and again when Arlin Bodin snagged another Stanislaus pass to set up another TD. Both were in the final period.

Halfback Dusty Rhodes spoiled Notre Dame's hopes for a shutout when he intercepted a Truax pass and galloped 35 yards to score. Center Paul Weaver kicked the extra point from placement.

Teen Times

Last Monday we had a good opportunity to observe just about every one of you marching in the Veteran's Day Parade. Our first impression: complete amazement. . . don't think many spectators realized that there were so many young people in the area. After recuperating from the first shock, we were gratified to note how nice most of the girls and boys looked, and how well they conducted themselves in the parade. The only really discordant note was a few girls, mostly of the younger set in the 13 and 14 year old group wearing rat's nest coiffures, overabundant eye make-up and dresses much too short to be stylish, these however, were a very small minority, most of you were a credit to your schools and parents!

Nancy Swords, Janet Crow, Jane Traver, Elaine Brogdon, Prima Thomas, Connie Bermond, Betty Hill, Sandra Fillingame, Georgia Necaise, Riley Walker, James Waite, Mike Bourge, Joe West, Drew Fillingame, Richard Bermond, Wayne Ladner, David Williams, Bell Terry and Mike Smith accompanied by Rev. Emory Green and M. L. Hill were among 10,000 young people from all parts of the state attending 12th annual Youth Night of the Mississippi Baptist Convention in Jackson last Thursday night.

Sharon Redding and Cheryl Mayer are busily selling tickets for the 47th annual Flea-Fly classic to be held in Rockaway Stadium Sunday. The girls are among those hoping to reign as Queen of the court. The girl selling most tickets will wear the crown and top runners-up will serve as maids in her court.

With Thanksgiving in the offing, most college students are planning to come home for the holidays. From Mississippi State there'll be Jimmy Shippey, Jimmy Chintche and Rip Kennedy; from Southern, J. P. Compretta, Edith Traub, Mildred Parker, Gautier Mayfield, Bob McCutcheon, Freda Pernicaro, Roy Saux, Mary Lou Herlby, Karen Williams, Nita Kay Erwin, Pennie Sue Webb, Paula Crider, Aline Hobbs; Ole Miss: Kay Dorich, Gail Stewart, Karen Lewis, Jimmy Larroux, Ronnie Russell, Albert Brignac, Jody Gex, Carl Gottschalk and Dennis Seuzeneau; from L.S.U., Ripple Rausch, Maxie Trelles and Bobby Cabes, and from P.R.C.: Betty Smith, Jimmy Gametta, Billy Pahlman, Ann Calhoun, Linda Mazarakis, Kenny Develle, Hiram Baxter, Sam Allison, Janice Bourne, Bobby Compretta, Ray Kidd, Sammy Cuevas, Don Everett, Henry Heitzmann, Kenny Kothmann, Ted Lehman, Frank Miller, Richard Schaeffer, Irene Thomas and Davy Smith. Others who'll be coming home include Toni White, she's attending business school in New Orleans; Carolyn Daniels who is in her second year as a budding X-ray technician and Sondra-Hinson and Nancy Chastmann, both of whom are employed in the Crescent City.

Janet Trapani arrived home for the weekend. . . she's now enrolled in a New Orleans business college. Her cousin Marcia was her weekend guest.

A very happy birthday wish goes to Jean Delaney who celebrated her 12th at a party at the home of her grandmother, Mrs. M. R. Grider last Saturday. Nov. 2, Ron Buffin is in line for both birthday and get well wishes. Ron was 16 on Saturday also.

Christy Torgerson arrived home for the weekend but spent most of her time with her nose in books. . . she was bawling up for exams which are underway at Southern this week.

Tim Fagen, a freshman at P.R.C., spent the weekend at his Waveland home.

Over at Stanolenn the news is out that senior class officers Juan Caso, Albert Lacombe, Juan

De Diance and Charles Levings will remain on campus during Thanksgiving holidays. . . control yourselves, girls! Judith Boudreaux attended Redemptorist High homecoming game in New Orleans
